

**Monitoring Violations Annual Notice Template**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

Monitoring Requirements Not Met for IL1010150

Our water system violated several drinking water standards over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we did to correct these situations.

*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 01/01/2021 – 12/31/2023 we mailed samples to the Illinois EPA and one sample's results were not issued in the allotted timeframe for lead & copper and therefore cannot be sure of the quality of our drinking water during that time.*

**What should I do?**

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for lead & copper, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required sampling frequency	Number of samples taken	When all samples should have been taken	When samples were or will be taken
Lead & Copper	20	20	June – September 2023	August – September 2023

**What happened? What is being done?**

Request that sampling kits be mailed to Lawrenceville Water Department in June instead of August and that all test results be reported in a timely fashion.

For more information, please contact Aaron Tipsword at (618) 943-4821 or 700 E. State St. Lawrenceville IL 62439

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

This notice is being sent to you by the City of Lawrenceville.
